

YASH KUMAR

Product Designer | UI/UX & Design Systems | Fintech & SaaS

Delhi, India | +91-8860676994 | yash.kumar.97739@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Behance](#)

PROFESSIONAL SUMMARY

Product Designer with verified hands-on experience across Fintech, SaaS, and B2B dashboards — from IIT Delhi internship to live product delivery at SwapSo (Bitcoin super-app) and Startiffy. Owns full design pipelines: discovery, wireframing, high-fidelity UI in Figma, and developer handoff. Integrates AI tools to ship faster without cutting quality.

CORE SKILLS

Design: UI/UX Design, Interaction Design, Visual Design, Design Systems, Wireframing, Prototyping, Branding

Research: UX Research, Usability Testing, User Interviews, Flow Analysis

Tools: Figma (Dev Mode), Adobe XD, Framer, Principle, ChatGPT, Claude, Midjourney, Galileo AI, UXPilot

Process: Agile/Sprint, Design-to-Dev Handoff, Stakeholder Communication, Cross-Functional Collaboration

Leadership: Team Management, Mentoring, Problem Solving, Communication

EXPERIENCE

User Experience Researcher | Zeproc — Freelance

Jan 2026 – Present

Remote | Stavanger/Sandnes, Norway

- Conduct UX research and usability testing on Zeproc's B2B marketplace used by industrial buyers across Norway and globally.
- Run flow analysis to identify friction points and deliver research-backed recommendations on navigation and search.
- Use AI tools to accelerate research synthesis and insight generation.

Lead Product Designer | Startiffy

Aug 2025 – Mar 2026

Remote, India

- Led product design for 3+ client products simultaneously, owning discovery, information architecture, wireframing, and high-fidelity UI in Figma.
- Defined a company-wide design system (tokens, components, documentation), reducing designer onboarding time by ~40%.
- Collaborated with engineers during handoff using Figma Dev Mode, shortening design-to-dev iteration cycles.
- Drove visual and UX direction for Startiffy's own platform, contributing to early user acquisition and stakeholder pitches.

Product Designer | SwapSo — Freelance

Sep 2025 – Nov 2025

Remote, New Delhi, India | Fintech / Web3 | Certificate of Appreciation — Karan Gill, Founder

- Led end-to-end UI/UX for SwapSo.io — a Bitcoin super-app featuring dual-wallet (Standard & Self-Custody), Lightning Network payments, and VIP investment flows.
- Conducted 5+ user interviews; synthesized findings into wireframes and dark-themed high-fidelity prototypes in Figma.
- Delivered complete brand identity (logo, color, type, iconography) alongside all product screens.
- Compressed 3-month project scope to 8 weeks without compromising quality.

UI/UX Product Designer | DevLaunch — Internship

May 2025 – Jul 2025

Remote, New Delhi, India

- Designed human-centered interfaces for two internal products in a 3-person team, collaborating with developers and PMs in agile sprints.
- Enhanced visual storytelling across marketing and product surfaces using Figma and Principle.

- Product Designer Intern | Karyakaram

Remote, Delhi, India | Certificate of Completion — Gaurav Bisht, Karyakaram

- Contributed to UI/UX and product design tasks for a creative, community-impact initiative spanning education and outreach.

UI/UX Designer Intern | Divine Lab, Dept. of Design, IIT Delhi

On-site, Delhi | Under Prof. Jyoti Kumar, Associate Professor — Verified by Official Letter

- Contributed to curriculum research and development for the Digital Design & Development course at Schools of Applied Learning, Punjab.
 - Created handouts, slide decks, and visual assets using Figma and Framer; researched no-code/low-code tools for 12th-grade curriculum.
- SELECTED PROJECTS
- SwapSo.io — Bitcoin Super-App & Wallet

Fintech / Web3 | 2025

- Designed sleek, dark-themed UI for a Bitcoin super-app catering to beginners and expert investors — dual-wallet (Standard & Self-Custody), Lightning Network micropayments, Bitcoin-on-EMI, and VIP investment guidance.
 - Owned complete brand identity (logo, color, typography, iconography) and all product screens; delivered within 8 weeks.

Shayog — Real-Time Accident Detection App

Accessibility-First | 2024

- Designed a distraction-free, accessibility-first UI for a smartphone sensor-based app that detects crashes/falls and alerts emergency contacts instantly.
 - Recognized as a flagship student innovation at the Tyagaraj Stadium Exhibition.
- EDUCATION
- B.Des in Interaction Design

Delhi Technological University, Delhi, India

2025 – 2029 (In Progress)
- ACHIEVEMENTS & CERTIFICATIONS
- ✓ Certificate of Appreciation — SwapSo — UI/UX of App, Website & Brand Identity | Karan Gill, Founder, SwapSo

Dec 2025

✓ Certificate of Completion — Karyakaram — Product Designer Intern | Gaurav Bisht, Karyakaram

Apr 2025

✓ Certificate of Participation — UX Hackathon’25 — Rendezvous, IIT Delhi Design Club

Sep 2025

✓ Internship Completion Letter — Divine Lab, Dept. of Design, IIT Delhi | Prof. Jyoti Kumar, Associate Professor

Jun 2024

✓ Certificate of Participation — New Delhi World Book Fair — National Book Trust, Ministry of Education, Govt. of India

Feb 2024
