

YASH KUMAR

Product Designer | UI/UX & Design Systems | SaaS & Fintech

Delhi, India | +91-8860676994 | yash.kumar.97739@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Behance](#)

PROFESSIONAL SUMMARY

Product Designer with hands-on experience across mobile apps, B2B dashboards, and design systems for SaaS and fintech teams. Owns end-to-end design pipelines — discovery, wireframing, high-fidelity UI in Figma, and developer handoff — and integrates AI tools (ChatGPT, Claude, Midjourney, Galileo AI, UXPilot, Framer) to ship faster without compromising quality.

CORE SKILLS

Design: UI/UX Design, Interaction Design, Visual Design, Design Systems, Wireframing, Prototyping, Branding

Research: UX Research, Usability Testing, User Interviews, Flow Analysis

Tools: Figma (Dev Mode), Adobe XD, Principle, ChatGPT, Claude, Midjourney, Galileo AI

Process: Agile/Sprint Workflows, Design-to-Dev Handoff, Stakeholder Communication, Cross-Functional Collaboration

Leadership: Team Management, Mentoring, Problem Solving, Communication

EXPERIENCE

User Experience Researcher | Zeproc — Freelance

Jan 2026 – Present

Remote (Stavanger/Sandnes, Norway)

- Conduct UX research and usability testing on Zeproc's B2B marketplace used by industrial buyers across Norway and globally.
- Run flow analysis to identify friction points and deliver research-backed recommendations on navigation and search.
- Use AI tools to accelerate research synthesis and insight generation.

Lead Product Designer | Startiffy

Aug 2025 – Mar 2026

Remote, India

- Led product design for 3+ client products simultaneously, owning discovery, information architecture, wireframing, and high-fidelity UI in Figma.
- Defined and enforced a company-wide design system (tokens, components, documentation), reducing designer onboarding time by ~40%.
- Collaborated directly with engineers during handoff using Figma Dev Mode, shortening design-to-dev iteration cycles.
- Drove visual and UX direction for Startiffy's own platform, contributing to early user acquisition and stakeholder pitches.

Product Designer | SwapSo — Freelance

Sep 2025 – Nov 2025

Remote, New Delhi, India

- Led end-to-end UI/UX design for SwapSo's mobile app and marketing website, building a cohesive product ecosystem from scratch.
- Conducted 5+ user interviews and synthesized findings into wireframes and high-fidelity prototypes in Figma.
- Delivered a complete brand identity system (logo, color, type, iconography) alongside the product UI.
- Coordinated directly with the founder to compress a 3-month scope into 8 weeks without compromising quality.

UI/UX Product Designer | DevLaunch — Internship

May 2025 – Jul 2025

Remote, New Delhi, India

- Designed intuitive, human-centered interfaces for two internal products as part of a 3-person design team, collaborating with developers and PMs in agile sprints.
- Enhanced visual storytelling across marketing and product surfaces using Figma and Principle.

Design Intern | Karyakaram

Apr 2025 – May 2025

Remote, Delhi, India

- Contributed to UI/UX and communication design tasks for a creative, community-impact initiative spanning education and outreach.

UI/UX Intern | Department of Design, IIT Delhi

May 2024 – Aug 2024

On-site, Delhi, India

- Designed UI/UX solutions, wireframes, and final UI screens for a Punjab Education Department platform under IIT Delhi faculty supervision, applying accessibility best practices at a government scale.

SELECTED PROJECTS

Shayog — Real-Time Accident Detection App

- Designed a distraction-free, accessibility-first UI for an app using smartphone sensors to detect crashes/falls and alert emergency contacts; recognized as a flagship student innovation at the Tyagaraj Stadium Exhibition.

EDUCATION & CERTIFICATIONS

B.Des in Interaction Design 2025 – 2029 (In Progress)

Delhi Technological University, Delhi, India | Certificate of Appreciation — SwapSo, awarded by Founder Karan Gill
